## Building Stronger, More Competitive Rehabilitation Services

Accreditation Programs Designed Specifically for Physical  
Medicine & Rehabilitation Practices, Clinics, and Hospitals

**Your patients come to you for many reasons – pain relief, restored function, improved quality of life, disease management, improve balanced, and more. They choose your services for these and other benefits as well as your individualized, multi-disciplinary, professional care.**

**Now take the next step with us.**

### **Key Objective**

Working together, accreditation transforms your organization, increasing satisfaction for your staff, your patients, and you.

**Investing in your rehabilitation services by working with Temos can provide numerous benefits for you and your team.**

With its targeted focus on patient safety, risk management, and an overall excellent patient experience, Temos' programs are developed by an interdisciplinary team of experts based on international best practices, current research, and experience to deliver state-of-the-art standards to achieve the best therapeutic outcomes for your patients.

**Whether large or small, serving domestic or international patients, select the option that suits your needs. Then let us share our knowledge and expertise to lift your standards to the next level. The results of becoming a Temos client will help you walk a straight path to a stronger, more competitive organization.**

# For Rehabilitation Practices, Clinics, and Hospitals: Three Options

## *One size does not fit all.*

Select one of the three accreditation options that best fits your organization.

### **Option 1: Quality in Rehabilitation Care – Outpatient Services**

The “Quality in Rehabilitation Care – Outpatient Services” accreditation program is developed for practices, clinics, and hospitals to strengthen their clinical and nonclinical services.

#### **Topics reviewed include:**

- ✓ Quality management
- ✓ Medical services and therapy planning
- ✓ Therapeutic measures and services
- ✓ Patient and staff safety
- ✓ Patient experience management
- ✓ Effective communication
- ✓ Legal and ethical issues, and more.

This comprehensive, integrated approach takes into consideration the distinctive services delivered to clients to meet and exceed their unique medical, emotional, and cultural needs.

**This option is preferred by providers that offer outpatient services only.**

## Option 2: Quality in Rehabilitation Care

The “Quality in Rehabilitation Care” program is designed for providers who offer outpatient and inpatient services. This program’s standards include those in the Outpatients Option 1 as well as additional standards to ensure proper integrated multidisciplinary care necessary to treat more complex inpatient cases.

This option is preferred by providers that offer both inpatient and outpatient services and that treat domestic and/or international patients. Those service providers who treat more than 10% international patients may also consider Option 3.

## Option 3: Excellence in International Rehabilitation Care

The “Excellence” program includes all the standards in the “Quality in Rehabilitation Care” program and contains additional standards specifically designed to meet the particular needs of international patients. Successfully complete the “Excellence” program and also receive accreditation for the “Quality” program – a 2-for-1 bonus!

The “Excellence” program is for providers who either (1) serve international patients only or (2) treat a combination of domestic and international clients with international patients comprising more than 10% of all patients. Other prerequisites also apply.

**Have questions about which program is best for you? Contact Temos for quick answers.**

# Benefits for Your Organization.

---

**Temos builds thriving practices, clinics, and hospitals through its specialized, quality solutions designed by its experts and tailored to the specific needs of rehabilitation medicine service providers.**

Temos' multidisciplinary approach to creating its standards reflects the integrated services offered by rehabilitation teams whose valued members include physical, occupational, speech, or other therapists, nurses, engineers, physiatrists, psychologists, orthotists, prosthetists, and vocational counselors. Family members play an important role as part of the patient's rehabilitation program.

**Working together to coordinate and maximize the team effort, Temos accreditation can:**

- ✓ Increase revenue & create new revenue streams
- ✓ Improve care management
- ✓ Reduce costs & increase efficiency
- ✓ Enhance patient experience
- ✓ Define & build market differentiation
- ✓ Access third party networks
- ✓ Grow patient loyalty
- ✓ Promote trust & confidence
- ✓ Enhance brand equity and goodwill
- ✓ Provide the reassurance of a trusted name

Developed by rehabilitation experts, Temos' specially created standards are specific, up-to-date, comprehensive, and industry-leading.

## FREQUENTLY ASKED QUESTIONS

### What is the purpose of accreditation?

To (1) objectively assess, evaluate, and validate the quality of clinical and non-clinical services; (2) identify areas for improvement; and (3) optimize the quality of services, assuring the complete continuum of care.

### How long does the accreditation process take?

The entire accreditation process takes between 6 to 12 months, depending on the timeliness of the Client's self-assessment.

### For how long is the accreditation valid?

Temos accreditation is valid for three years.

### What are the costs of accreditation with Temos?

The initial costs are a flat fee based on the size of the organization plus direct expenses for assessors (travel & for on-site visit). Annual fees are due at the end of year one and year two of the three-year validity period.

### How is the accreditation process started?

Call or email us today. You may also visit the Temos website. You will be assigned a private, secure username and password to access the Temos Information Chart (TIC). Complete the TIC to receive your free estimate of costs and expenses.
